

Idaho Content Standards
Science Concepts And Vocabulary Grade 7
(Actually covers grades 5, 6, & 7)

***This word list is not to be taught to students. The list is only reflective of concepts that students may encounter in classroom or state assessments.**

***The words in this list are intended to match the language of instruction to the language of assessment.**

Students are expected to know and apply VOCABULARY from previous grades.

Standard 1:

cells	observation
concepts	organ systems
conclusion	organism
controls	organs
critical thinking	predications
data	scientific explanations
evaluate	scientific procedures
evidence	stable
function	system
hypothesis	technical instructions
inference	techniques
investigation	tissues
metric measurements	tools
models	variables

Standard 2:

No terms

Standard 3:

abundance	herbivores
atoms	inheritance
biosphere	limits to resources
carnivores	living
cells	molecules
chemical reactions	natural selection
components	nonliving
cycle	organ systems
decomposers	organisms
distribution	photosynthesis
dominant traits	recessive traits
ecosystems	relationships
energy	resources
energy flow	species
function	tissues organs

Standard 4:

No terms

Standard 5:

alternative energy
technology
